SAN FRANCISCO DEPARTMENT OF PUBLIC HEALTH

LINCS is your link to sexual health

Have you been tested for syphilis?

- If you have syphilis, getting treated today will help keep you healthy, and will prevent the spread to your partners
- We recommend testing for STDs every 3 months

Are you or your partners interested in PrEP?

- PrEP is a daily pill that prevents HIV by more than 90%
- We have a team who can help you get PrEP regardless of insurance status

Living with HIV and haven't seen a doctor in 6 months? Newly diagnosed?

Our team can help you:

- Get into HIV care
- Stay healthy on medications to keep your viral load low so you don't transmit HIV

WHAT IS PARTNER SERVICES?

It can be difficult to tell your partners you have HIV or an STD. Our specialists can contact partners and get them free testing and treatment, while protecting your privacy.

To get LINCed, call us at 98-LETS-LINC | www.sfcityclinic.org

LINCS is the city's team ensuring access to comprehensive sexual health services.
